

# PRIME KIDZ SCHOOL

Learning is Fun and Exciting

- PLAY GROUP • NURSERY
- JUNIOR KG • SENIOR KG

At **PRIME KIDZ SCHOOL**,  
*we can achieve for proper education and development*

## About Us

PRIME KIDZ SCHOOL is founded in May 2014 by Adhisivan Educational Trust. Learning is fun and exciting when it comes to a better place for your children to explore new things and discover the amazing world of learning through education. At PRIME KIDZ SCHOOL, we do proper guidelines in handling learners from Pre-Primary and Kindergarten. Somehow they need some attentions for their basic learning such as academics, Storytelling and Interpersonal activities. We are able to communicate with parents in regards to the performance and development. Parenting stage is the most important chapter of human life. That's why we make a relationship with the children and parents.

**"Create the best future for your Children"**

## Our Vision

The PRIME KIDZ Vision of Education is the "Formation of persons with moral uprightness, social responsibility and pursuit of excellence".

## Our Mission

The mission of the school is to impart moral values and to enable the children to grow up into caring and sharing individuals, equipped for making the right choices in life and responsible citizens of the country and the world.

We are able to provide quality education for total development in progressive education through books, activities and values as our support to identify as school for child learning and playing. Parents are encouraged to take an active part in all aspects.

**At PRIME KIDZ SCHOOL, we can achieve for proper education and development.**

## Why Kindergarten Is Needed?

In this children's garden (Kindergarten) the children play and learn. Put in another way, they learn to play in a definite way which is both fun and education at the same time and helps them to join the school later. This is called the PLAY-WAY METHOD fun at learning.

## Programs Goals

- Developing a positive attitude towards schools,
- Helping each child to develop self confidence.
- Assisting each child to build a habit of concentration.
- Fostering an abiding curiosity.
- Developing habits of initiative and persistence.
- Fostering inner security and a sense of order in the child.

## Basic Programs

We have a special programs for pre-primary and Kindergarten in different categories.

- Basic Shapes and Colors.
- Basic Arts & Crafts
- Basic Alphabet and Numbers.
- Basic Mathematics.
- Basic Communication.
- Basic Storytelling.

## Our Methodology

### Play Group & Nursery

They learn to speak by storytelling and play the same by acting it out. They develop their vocal chords and speech by learning nursery rhymes and they play by singing it. They learn to develop their visual skills at reading by recognizing the letter of the Alphabet and they play by juggling them with alphabet-card.

The same goes to recognizing numbers by playing the number games. Then they have adventures of learning people, things and animals by images, pictures and even cartoons. They learn to be with others, play together and make friends.

What is most important at this stage is learning to speak. It is only by speech and repetition that the child really learns. Speaking less means learning less. If the child speaks less, it means he knows less.

### Junior KG & Senior KG

KG is a world of its own, full of colour, fun and activities. In order to do this, the first psychological requisite is to make the child feel SECURE, that is, make it feel at home with the class, the teacher and other children. A warm atmosphere is created so that they will love learning and long to come to the kindergarten. Therefore, everything is planned very carefully and child- centered. They are in the kindergarten for five hours. They are occupied with various activities which help their emotional, social, intellectual and physical development.

## Our Teachers

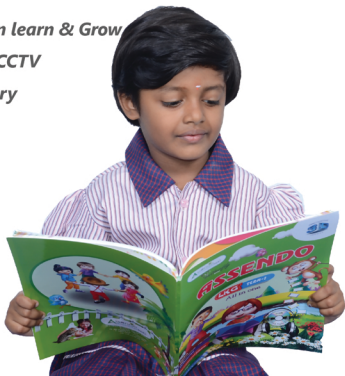

Our teachers are especially trained person who assists in the intellectual, emotional and psychological development of the child with great care and understanding. It requires a great deal of hard work and preparation. Special care is taken to choose these teachers because their responsibility in dealing with the little children is great. They have to communicate with the children at a much deeper level than merely on the level of teaching.

## Salient Features

- **A Wonderful Environment where children can learn & Grow**
